

Fall 2011-Spring 2012

## Medical Health Questionnaire and Physician's Health Evaluation

Dear Student:

The Student Health Office would like to congratulate you on your acceptance, and welcome you to the University of the Sciences. At this time, we would like to request that you complete the Medical History Questionnaire. It is a University policy that all full-time students complete these medical documents to be part of your confidential medical record, kept onsite at the Student Health Office.

In order for our medical staff to treat students in an effective manner, it is imperative that this form be completed by you and your physician. To provide a safe and healthy environment at the University of the Sciences, it is important that all students complete the immunizations required **prior** to entry.

Please take time to look at the last two pages of the medical questionnaire. This is the Immunization Record. It must be completed and signed by your primary care provider. We do not accept copies of immunization records from other facilities, and if required information is missing, the form will be returned to you.

- Health records must be completed, signed, and mailed to the Student Health Office. **DO NOT MAIL** your health form to your academic or Athletic departments.
- **Retain a photocopy of the health form for your own personal records and for other departments.**
- Carefully check your health form prior to mailing to be sure it is properly completed. Incomplete forms will not be accepted.
- Students are exempt from the immunization requirements if there is a medical contraindication or if religious belief prohibits immunizations. A signed statement from a health care provider or a clergy is required for exemption.

Early compliance with this request will help you avoid administrative delays on Move In Day. **Students who do not submit a fully completed health form by August 10, 2011 will be charged a late fee of \$25.00 to their Student Account. Semester grades and registration for the Spring semester may be placed on hold.** You can download additional forms from USciences's Student Health web page (<http://www.usciences.edu/health/forms.shtml>). In addition, there will be an opportunity during Summer Orientation to ask questions about these materials and turn in any miscellaneous forms to complete your file.

Thank you in advance for your cooperation.

Sincerely,

Bonnie J. Packer, R.N.  
Nurse Manager
