**USCIENCES LIMB DISASSEMBLY DAY**

*Martin Luther King Jr. Day of Service—A day “on,” not “off.”*

**Monday, January 20, 1 p.m.**

University of the Sciences  
IPEX Building, Room 105  
45th St. and Woodland Ave.  
Philadelphia, PA 19104

The spirit of MLK Day of Service is to “empower individuals, strengthen communities, bridge barriers, create solutions to social problems, and move us closer to Dr. King’s vision of a Beloved Community.”

USciences is partnering with local prosthetics & orthotics providers for a limb disassembly day to address the social problem of limited mobility resources for people with amputations. During this event, USciences students, faculty, staff and P & O technicians will disassemble donated limbs into their components. These parts will be prepared, packaged, and shipped to the Range of Motion Project (ROMP) in its Components for A Cause Program. ROMP is a nonprofit, for-impact healthcare organization providing high-quality prosthetic and orthotic care through its operations in Guatemala, Mexico, Ecuador, and the United States. Our goal is to deliver aid to those without access to quality rehabilitative care.
